

CONCEPT MAPS – INFORMATION

This tool will assist you to gain a deeper understanding of the topic you are studying. By creating links from the content in each cell to the next you will start to understand the bigger picture of your topic. A good idea is to construct the concept map over the course of the topic. Alternatively, you can create a concept map near assessment time to make sure that you know everything you need to!

PROCESS
Enter the Topic,
in the topic area

CONCEPT MAPS

Topic: Water and the Human Body

Step 1: Name Idea
Enter the idea in the top cell of the concept map.

Step 2: Build Connections
Build connections outwards from the topic.

Step 3: Explain Connections
Explain the connections between each linked cell/idea.

Step 4: Extension
Your map can keep growing as you learn and add more information.
