A New Digital Resource Hub for your School

What people are saying about thinkdrive?

Thanks again for yesterday's session. As much as we have introduced the resource multiple times to our teachers, having the creator coming along to show them the power of it was invaluable in generating excitement and interest in it.

Christie Meiklejohn, Head of Curriculum, Albany Hills State School Qld

Thank you very much for your work the other day explaining the Thinkdrive platform and helping my colleagues navigate some of the features located therein. I have already used the thinking tools multiple times since and my students have certainly found them helpful. Thanks again Gerard. It was a really good experience.

Stephen Frigo, History 9-12 Learning Leader, Luther College, Vic.

Thank you for your availability to present to the staff at Birchip P-12 School. The feedback I received afterwards was very positive. As I have previously mentioned, we have been using the think drive (thinking tools) for a while now. However, many currently on staff have not been exposed to them like you were able to do tonight and for others it was great to have a refresher. The additional content on the sentence starters and connectives was also a helpful addition. Similarly, the student feedback tools will also be very beneficial as this is also an area of emphasis within our school.

Andrew Sayle, Principal , Birchip P-12 School, Vic.

Thank you once again for taking the time to deliver a workshop to our staff yesterday afternoon. The feedback from our staff was extremely positive and we would like to purchase a subscription. Could you please have your office send me an invoice when they can. As you stated it was great to finally meet you even if it was only via zoom. If possible, I would definitely like to continue participating in workshops with you when appropriate. Take care!

Michael Stanizzo, Deputy Principal, Warrawong High School, NSW

itc thinkdrive

thinkdrive is a new digital resource framework that will not only lighten the load for teachers but will scaffold their students' learning toward independent thinking and enriched outcomes.

How does it work?

- Centred around 60 regularly-used and curriculum-aligned task verbs, *thinkdrive* has an array of downloadable and customisable thinking tools, templates and assessment exemplars
- *thinkdrive* contains hundreds of K-2 and Years 3-6, National Curriculum aligned, resources and
- *thinkdrive* also features printable posters, lesson and unit planning tools, cooperative learning activities, explanation videos, fast finisher activities and more! See:

itcthinkdrive.com.au/demo

How much does it cost?

Annual School Licence:

- K-12 School: $1200 + gst
- Secondary $800 + gst
- Primary $600 + gst

Purchase online at:

thinkdrive.com.au

Who will benefit?

All teachers from K-12 looking for easier ways to teach. All students from K-12, by empowering them with easier ways to learn.

How do I try it?

Try before you buy a School Licence

A: INDIVIDUAL LICENCE
$64.95 p.a.

Purchase online at *thinkdrive.com.au*

B: INTRODUCTORY WORKSHOP

- 45 - 60 min
- no-obligation + free
